

# Addressing Hoarding and Clutter: It's Possible!

New York State Supportive Housing Conference June 2, 2022

# Learning Objectives

- ☐ Identify underlying behavioral reasons for environmental health & safety challenges
- ☐ Distinguish between hoarding and clutter as different behavioral issues
- ☐ Understand clinical and practical approaches to addressing issues of hoarding and clutter

## Safe and Secure Home - Who We Are

Hope, Recovery and Resilience

### Safe and Secure Home – Who We Are

# Specialized team working with residents across Jewish Board supportive housing programs

- Assisting residents living in extreme conditions due to hoarding, clutter, and/or grease and grime who need support beyond existing restorative services.
- Monitoring for fire safety risks and providing client education.
- Providing person-centered and individualized services.

#### Safe and Secure Home

#### **Meet the Panel:**

- Alexandra Avena, LMSW Social Worker
- Norma Cummings Home Based Specialist
- Luc Fondrie-Teitler Residential Safety
   Coordinator
- Steven Hornsby, LCSW Program Director
- Helene Lauffer Chief Operating Officer

# Starting Point: Empathy and Understanding

# **Getting Started - Empathy**

The ache for home lives in all of us, the safe place where we can go as we are and not be questioned.

Maya Angelou

Resident Voice

Rachel

# Stressors and Contributing Factors

Lack of Social Supports

Family Stress or Conflict

Lack or Loss of Skills

Sense of Hopelessness

Physical Health Limitations

Medication Side Effects

Low Income-Financial Stress

History of Trauma

Past Experience of Homelessness

Lack of Needed Supplies

Roommate Conflicts

**Learned Habits** 

# Mental Health Issues

- Depression
  - Lack of motivation
  - Distorted perception
- DifficultyConcentrating
- DisorganizedThought Process

# **Understanding Ourselves**

# What We Bring

 Personal lens – foundational experiences about housekeeping

What lessons did you learn?

- Concern How can I let something live this way!?
- **Frustration** *Why can't they change?*
- Stress Landlords, neighbors, inspections
- Discomfort Mice, roaches, grime (oh my!)

# Understanding Resident Risk

# Safety and Wellness Risks Residents Encounter due to Hoarding or Clutter

Increased Fire Risk Slip and Fall

Lack of Emergency Egress Negative Impact on Recovery

Inability to Bathe Properly Poor Air Quality & Odors Rodent & Insect Infestation

Loneliness & Isolation

Pain/Fatigue from Sleeping on Cluttered Surfaces

Roommate/ Neighbor Conflict Avoidance of services & supports

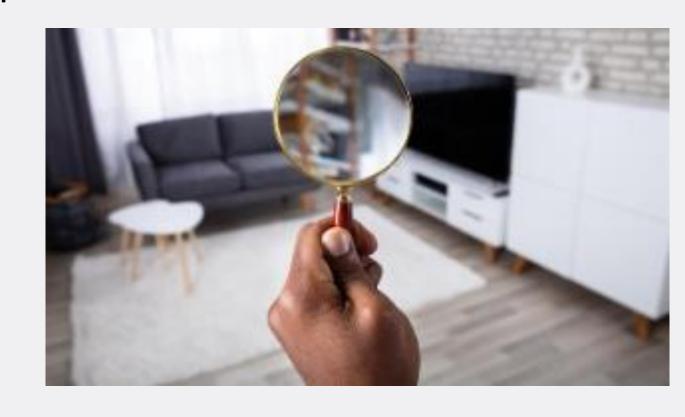

Loss of Housing/Eviction

# Identifying the Needs: The Collaborative Apartment Walkthrough

# Monthly Apartment Walkthroughs

- Service provided once a month to all residents in supportive housing
- Tool for identifying, measuring or assessing, and resolving conditions in apartments
- Primary focus lies in ensuring resident's functioning, safety, and quality of life

# Monthly Apartment Walkthroughs

- Performed using a collaborative model to engage with clients and build independent living skills
- Move toward guided practice by resident and independent walkthroughs
- Walkthroughs are linked with other recovery-oriented services the individual receives
- Connects residents to Safe and Secure Home for further support in apartments

# Walkthroughs - Identifying Needs

Housing Staff complete
Monthly
Collaborative
Walkthroughs
with all residents

Each resident assessed on scale for:

Hoarding

Clutter

Grease/Grime

Program
Director/Manager
reviews all
"Extreme" Ratings

All residents with confirmed "Extreme" ratings referred to SSH

SSH Staff meet with Housing Program staff in Consultation to plan next steps

SSH Staff works to engage residents

**Rating Scale:** 

N/A

Low

Medium

Extreme

# Collaborative Walkthrough Model

#### The Benefits

- ✓ Improved resident capacity to manage living spaces and gain independence
- ✓ Increased staff knowledge and skill in working with residents
- ✓ Comprehensive awareness of all resident living conditions and EHS issues
- ✓ Reduce reliance on aesthetic reasoning and personal bias

#### **What Makes It Work**

- ☐ Residents and staff embrace process
- ☐ Effective metrics, data collection and follow up system for issues needing resolution
- Ongoing training, education and support
- ☐ Listening to resident and staff input to improve process

# Understanding the Issues: Hoarding or Clutter?

# **Understanding Hoarding**

**Training Photos** – Hoarding in supportive housing typically not like sensationalized images in the media

# Hoarding – Starting with Empathy

# Resident Voice Shirley

I have a lot on my mind. Just a lot of stress. Different things. Well you know, there are a lot of thoughts you know. And after last year, my parents' passing, I've been thinking a lot about them and their wishes. What they wanted for me and my family.

# Insight and Understanding

Shirley has shared that many items in her home make her think of her family and signify for her comforting feelings of home, family, safety and love.

# **Understanding Hoarding**

## **Hoarding Disorder (DSM-5)**

- ☐ Excessive acquisition of stuff
- □ Difficulty discarding possessions
- □ Clutter compromises intended use of living areas
- □ Clutter causes significant distress and/or impairment

(APA, 2013)

# **Hoarding Behaviors**

#### **Acquiring**

- ☐ Passive or Active
- ☐ Buying, free things, family items

#### **Difficulty Discarding**

☐ Intense attachment to large number of items

#### **Disorganization**

- ☐ Random piles
- Visual organization

#### Saving (Values)

- Sentimental
- ☐ Instrumental/Usefulness
- ☐ Intrinsic/Monetary

# Cluttering Behavior (when not hoarding)

# Lack of compulsive acquiring

Often passive accumulation or lack of discarding

#### **Lack of intense attachment**

With support, able to discard without intense distress

#### Disorganization

Often related to mental health symptoms – difficulty focusing

#### **Impact**

Can still cause distress and impair functioning

## Assessment

# Clutter Image Rating

Frost, Steketee, Tolin, Renaud (2007)

Readily available free on-line and as an app.
This image from hoarding.iocdf.org

#### **Clutter Image Rating: Bedroom**

Please select the photo that most accurately reflects the amount of clutter in your room.

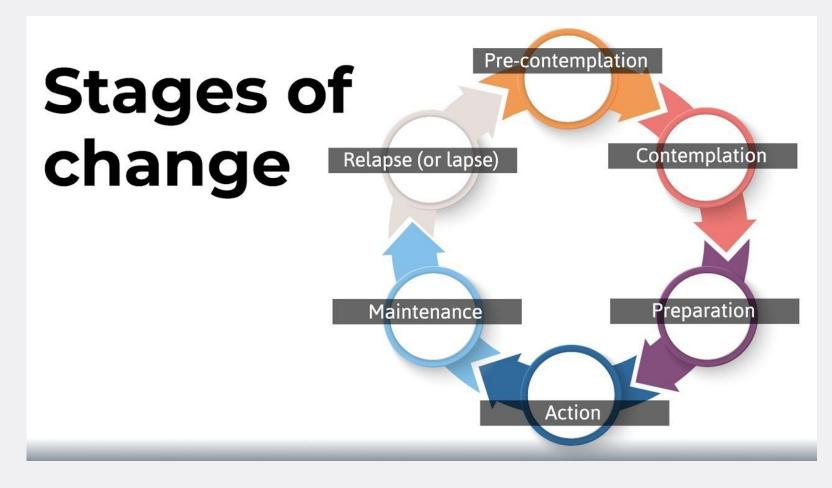

# The Safe and Secure Home Program Model

# **Guiding Frameworks**

- ☐ Working at individual's pace
- ☐ Understanding each person's behavior the "why"

# **Guiding Frameworks**

# Trauma-informed Care

☐ Seeking to create a safe and supportive space at all times

#### Harm Reduction

Emphasis on reducing risk and sustainable environmental health and safety

# Safe and Secure Home - Staffing

#### **Social Worker/Intern**

- ✓ Assessments
- ✓ Counseling
- ✓ Goal Setting Action Plans
- ✓ Strengthening cognitive/emotional skills
- ✓ Addressing barriers

#### **Home-Based Specialist**

- ✓ In-Home, Hands-on assistance
- ✓ Actualizing Goals
- ✓ Goal Setting Action Plans
- ✓ Modelling and teaching practical skills
- ✓ Support and encouragement

#### **Residential Safety Coordinator**

- ✓ Coordinate Apartment Walkthroughs
- ✓ Monitor safety issues across Division
- ✓ Provide support and consultation to programs
- ✓ Provide individual and group fire safety education to residents

# SSH Assessments – Measuring Change

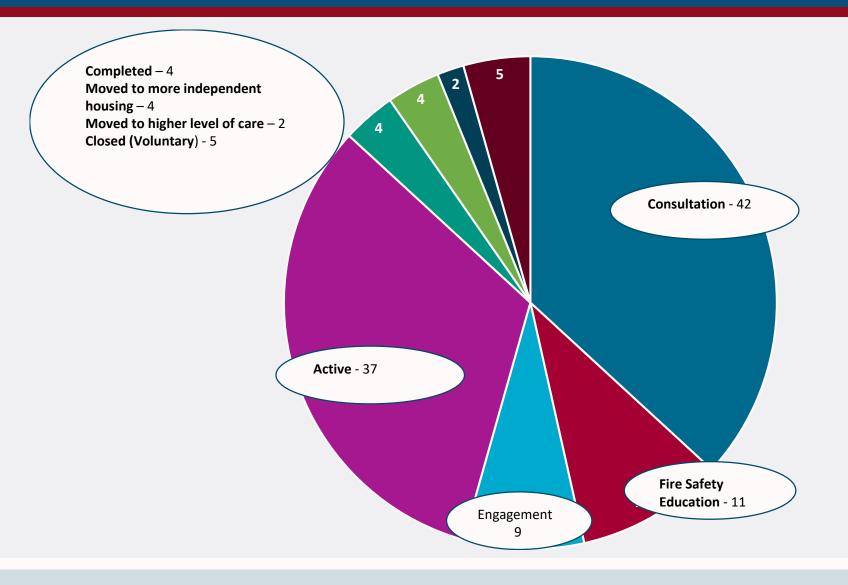

Assessment Tools	What it Does
Clinical Assessment	Learn about living space issues and what resident wants
Stages of Change Assessment	Measures and tracks client progress through program phases
Living Space Assessment	Objective and detailed assessment of client apartment conditions
Action Plans	Very specific and attainable goals set by client; guides work in apartment
Sustainability Plans	Long-term plans for maintaining apartment health and safety with supports

# Outcomes – Change is Possible!

#### Clients Served and Current Status

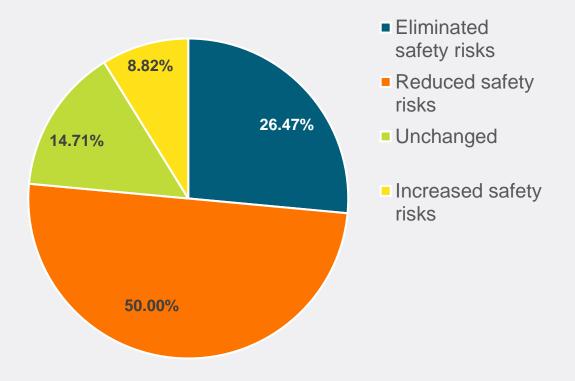

114 residents
served
August 2019 –
April 2022

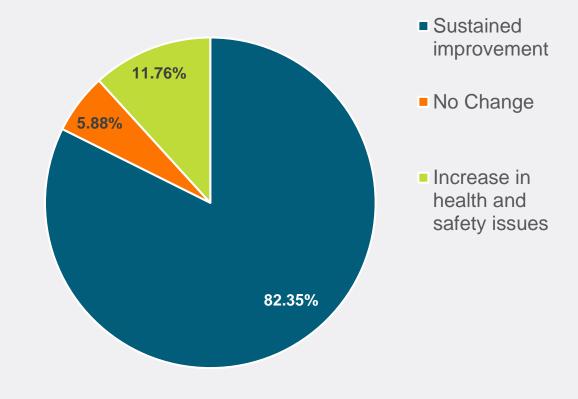

# Outcomes – As of April 2022

#### Safety Assessment

#### **Living Space Assessment**

# Strategies that Work!

# What Helps – Resident Voices

# Essentials – Relationship and Trust

#### **Engagement, Engagement!**

Trust is Essential

#### **Always Be Non-Judgmental**

- Manage your reactions-verbal and non-verbal communication in home visits
- Avoid labels and negative terms like "Hoarder"

#### **Be Curious and Interested**

Ask open-ended questions – interest in the person and their living space builds comfort

#### **Patience and Time**

- Progress often not linear
- Give power and choice whenever you can
- ☐ Ask for permission before acting
- ☐ Rolling with Resistance

# Essentials – Doing the Work

#### **Find Each Person's Motivation**

What will get someone working – small and immediate or long-term?

#### **Live Goals**

- ☐ Very specific and attainable
- Refer to often
- ☐ Use to guide work and in decision making

#### **Getting Started!**

Taking the first small steps can make all the difference

#### **Break Down Big Tasks into Small Steps**

- ☐ Help resident see change is possible
- ☐ Antidote to feeling overwhelmed and helpless
- ☐ Help resident focus on one task/area of the home at a time
- ☐ Set a work time limit use phone timer

#### **Lots of Encouragement!**

- ☐ Celebrate all progress, not matter how small
- Always thank residents for their time and work

# Essentials – Doing the Work

#### **Sorting Strategy**

- ☐ Focused area or theme
- ☐ Time-limited
- ☐ Helping person focus on individual items

#### Keep

- ☐ Don't critique
- ☐ Can inquire selectively what makes the person want to save an item

#### Discard/give away

- ☐ Don't critique or question
- ☐ If possible, help it happen asap

#### Maybe/Think About

Engage in discussion about decision and debate

# Essentials – Supporting Change

#### **Measure and Track Progress**

- ☐ Clutter Image Rating Scale, other assessment tool and/or photos
- Make measuring progress a collaborative exercise
- Recognize incremental change

#### **Lots of Support**

This work is challenging and can be frustrating. Staff need support!

- ☐ Training
- ☐ Supervision
- Acknowledgement
- Supplies

# Essentials - Practical Tips and Tools

# What You Always Need Time to prepare (take a breath)

- ☐ Clothing that fits the work
- ☐ Good shoes!
- ☐ PPE good quality gloves
- ☐ A positive and optimistic attitude<sup>©</sup>

#### **Useful Tools**

- **Tape measure** 3-foot pathways for safe egress
- ☐ Roll or brightly colored tape
  - Mark pathways
  - Mark level of clutter to track progress
  - Section off area to work on
- ☐ Disposable table cloths can be used to help reduce distraction by covering clutter not the focus at the time
- ☐ Clutter Image Rating Scale Phone app
- ☐ Incentives consider system of recognizing goal attainment

#### **Last Word**

In reflecting progress she has made over the past year

"It feels amazing. Like sort of, refreshing you know. Because before, I was a little stuck, everything was in these bags, and I would just look at everything. And now, I want to do more, I am seeing there is a lot more I could do."

Shirley
